International Prospectus

**An International University College
in Shanghai**

Welcome to SBC the Sino-British College

SBC was established in 2006 as an innovative collaboration between the University of Shanghai for Science and Technology (USST) and nine leading UK universities. SBC combines the best of Chinese and British education in one of the world's leading cities making it a truly international university college.

Our vision is to be known as an international gateway for excellence and innovation and we aim to foster an ethos of responsible leadership and cultural empathy within our students. We attract students and academics from all over the world to ensure that both our student body and our teaching faculty operate in different cultures and practices. This makes the experience offered by SBC truly unique.

I hope you will join us and contribute to achieving our vision. SBC will equip you with the academic and linguistic tools for success, not just in your home country but throughout the world.

Whatever you decide to do, my SBC colleagues and I wish you the best of luck. We hope you will take this opportunity to see what SBC and Shanghai have to offer.

Professor Laura Bishop
Principal
The Sino-British College, USST

Why Shanghai?

Shanghai is home to China's financial system and automobile industry, making it the Business and Engineering capital of China. Thousands of the world's biggest companies have chosen Shanghai to be their gateway into the Chinese economy and SBC is offering you the same opportunity.

Studying at SBC situates you on a campus right in the centre of a city of 24 million people who together have created China's most diverse, innovative, wealthy and enjoyable city. Because of its location, SBC offers you opportunities few other students have: international food, amazing nightlife, museums, theme parks (including Shanghai Disney), shopping malls, art galleries, and global sporting events. Shanghai also offers students many different internship opportunities ranging from 'Fortune 500' companies to innovative start-ups.

SBC and Shanghai offer you a fantastic start to your undergraduate student life, one that will assist you in building a successful, global career.

Celebrating Our Students' Success

Phillip, Germany
Graduated Events Management (4+0), 2013
Currently working at Jebson Motors in Hong Kong

'Shanghai and SBC are a great place to study and live. Whilst in my final year at SBC I did an internship at Porsche which directly led to my new job in Hong Kong.'

Michael, Indonesia
Graduated Mechanical Engineering related subject (4+0), 2013
Currently working for Huawei in Jakarta

'Living and studying in China has really benefited my career and the experience really helped me get my job for the Chinese company Huawei.'

Mandy, Angola
Business Management Student (2+2)
Graduated from the University of Bradford, 2019

'Having a British and Chinese education background is really unique and I think it has taught me a lot about the world and made me think about what I want to do with my future.'

Natalie, UK
Graduated Business Management (4+0), 2019

'Shanghai is such a fun place to live and studying in the city, at SBC, will give me career options that would not have been available otherwise.'

Sam, UK
Events Management Student (2+2)
Currently studying Hospitality Management at Manchester Metropolitan University

'SBC gave me an opportunity to start my British education and stay in China with my family who also live and work in China. After two years I feel I have the confidence and the academic ability to complete my studies in Manchester.'

What is a Pathway?

SBC offers students "Pathways". These pathways are represented by numbers, which are explained below:

Pathways	In Shanghai at SBC	In the UK
2+2	Two years in Shanghai at SBC including Foundation Year	Final two years in the UK
1+2	No Foundation Year One year in Shanghai at SBC	
4+0	Four years in Shanghai at SBC including Foundation Year	No period of study in the UK but there are opportunities to visit
3+0	No Foundation Year Three years in Shanghai at SBC	As above
3+1	Three years in Shanghai at SBC including Foundation Year	The final year in the UK
2+1	No Foundation Year Two years in Shanghai at SBC	
2+1+1	Two years in Shanghai at SBC Including Foundation Year Final Year in Shanghai at SBC	Penultimate year in UK
1+1+1	No Foundation Year Two years in Shanghai at SBC	

International Foundation Year

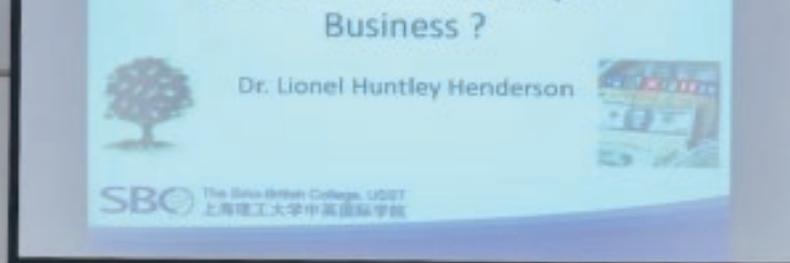

SBC's International Foundation Year is organised and accredited by the educational charity NCUK. When you complete NCUK's International Foundation Certificate in Business or Engineering you will have achieved a strong grounding in British university education with a qualification that is accepted across the world. You will also be automatically enrolled into one of SBC's Degree programmes.

Degree Entry Year (Undergraduate Diploma)

In both Business and Engineering, SBC's degree entry year is organised and accredited by NCUK. Students successfully completing this year are guaranteed a place at one of SBC's 9 UK partner Universities or a place on one of SBC's degree programmes delivered entirely in Shanghai.

School of Business and Management

Degrees wholly delivered in Shanghai

BA (Hons) Business Management

SBC and Sheffield Hallam University are pleased to offer you the chance to study Business Management entirely in Shanghai. The course is delivered by SBC's international team of academics and will give you a sound basis in the subjects of Business, Economics, Finance, and Marketing amongst other relevant disciplines.

There are few better places in the world to study Business Management than in Shanghai. The city is at the epicentre of the Chinese economy and home to thousands of international corporations. Students will have opportunities to communicate and interact with the local business community and will graduate with a strong understanding of how international business works.

Degree Duration: 3 Years (4 with foundation)

Core Modules Include: Strategic Planning, Business Consultancy, Marketing in a Global Context, Leadership in Contemporary Organisations, and Implementing Strategy and Change.

BA (Hons) Events Management

SBC and the University of Huddersfield have been offering Events Management programmes since 2008. This course is for you if you are interested in building a career in the exciting and fast-paced events sector. From rock concerts and the Olympic Games to local weddings and store openings, events managers are needed in various industries throughout the world. If you value creativity and enjoy planning, communicating and managing a team, this course will be suited to you.

Shanghai is the perfect place to study Events Management. Shanghai has some of the largest conference facilities and exhibition centres in the world. Several international trade shows are hosted in the city every week. Also, Shanghai hosts various sporting events throughout the year such as Masters Tennis, Diamond League Athletics, X-Games and the Shanghai Formula 1. Events like these have provided work experience for our students in the past and offer incoming students a chance to build an exciting career in the events and hospitality industry.

Degree Duration: 3 Years (4 with foundation)

Core Modules Include: Conference and Exhibition Management, Stadium and Arena Management, Creativity and Innovation in Context, and Global Events and Festivals.

USST Dual Degree

Full degree programmes at SBC can be completed as a dual degree. The University of Shanghai for Science and Technology will be the other awarding body. **Please go to page 10 for more information.**

School of Engineering and Computing

Degrees wholly delivered in Shanghai

BEng (Hons) Mechanical Engineering

At SBC, Mechanical Engineering is a programme delivered in partnership with Liverpool John Moores University. Students studying on the programme will gain the initial educational requirements for a professional engineer alongside a range of relevant transferable and engineering management skills.

Mechanical Engineering plays an important role in Shanghai. The city is home to many of the world's largest manufacturing firms and annually hosts the Shanghai Auto Show, the largest automobile exhibition in the world. Currently, Shanghai is considered one of the most important locations in the global automobile industry. We believe that students who study in this environment will be inspired and motivated to succeed as professional engineers.

Degree Duration: 4 Years (3 without foundation)

Core Modules Include: Mechanical Principles, Drawing and Design, Industrial Automation, Control and Instrumentation, and Engineering Mathematics.

BEng (Hons) Electrical and Electronic Engineering

Electrical and Electronic Engineering is delivered in partnership with Liverpool John Moores University. Students studying this programme at SBC will gain core engineering principles as well as specialisations in computation, software and electrical design. The programme aims to produce graduates with a breadth of knowledge and understanding in electronics and control engineering, engineering management and teamwork to enable them to rapidly assume technical leadership and management roles.

Shanghai is a leading global hub for many industries related to electrical and electronic engineering. The city hosts major companies that lead the world in 5G technology, cybercrime prevention and automation.

Degree Duration: 4 Years (3 without foundation)

Core Modules Include: Industrial Automation, Control System Design, Engineering Mathematics, Linear Electronics, and Quality Systems.

USST Dual Degree

Full degree programmes at SBC can be completed as a dual degree. The University of Shanghai for Science and Technology will be the other awarding body. **Please go to page 10 for more information.**

Important Information

USST Dual Degree

Starting in September 2020, SBC and USST are offering students a fantastic and unique opportunity to earn both a British degree and a Chinese degree. If international students have a strong desire to learn Chinese they can be dual enrolled. This means that after four years of study at SBC, students can earn both a British degree certificate from either the University of Huddersfield, Liverpool John Moores University or Sheffield Hallam University, and a Chinese degree certificate from the University of Shanghai for Science and Technology (USST).

SBC and USST will provide Chinese lessons and language learning equipment to all students enrolled on a dual degree programme. If students are unable to achieve a Chinese language level of HSK 4 they will not be eligible to graduate from USST. Students will be allowed a total of 6 years to achieve HSK 4. Should the student fail to do this they will still be able to graduate with a British degree.

Accommodation

SBC's International Student Accommodation is situated on campus. Being in central Shanghai, students living in the accommodation benefit from being in close proximity to one of the most international, cosmopolitan and vibrant communities in China.

SBC's international accommodation offers incoming students a choice of either 2 person rooms or 4 person rooms. SBC's campus, including the accommodation block, has a 24 hour security service which ensures the safety of all our students.

Learning Chinese

International Students who are not enrolled in the dual degree programme are entitled to free Chinese lessons. They are not compulsory and are not credited towards the degree.

SBC's Chinese programme follows the HSK system, and students starting SBC with no Chinese could achieve HSK 2 within the first year at SBC. Two years at SBC would allow students to achieve an understanding of Chinese equivalent to HSK 3, and three to four years at SBC would allow students to obtain an HSK 4 Level of Chinese. HSK 4 is the grade needed to enter a Chinese state university and demonstrates a high level of fluency.

Career Development

At SBC, training and expertise is offered to all students who would like to find an internship or legal employment in Shanghai. Our Career Service Team have links with top companies in Shanghai, many of whom send representatives to talk to students on campus. In previous years SBC graduates have gone on to work for; Jebson Motors, Huawei, KPMG, Standard Chartered, PWC, Saatchi & Saatchi, Accenture and many more.

Single Degree

Academic Requirements

Foundation Entry

- GCSE/IGCSE: Successful completion of 5 modules, including Maths and English, with grades of 4 or above. (CCCCC for Pre 2017 Students)
- IB: 22 Points

Degree Entry

- A-Level: CDD (Maths required for engineering programmes)
- IB: 24 Points

For entry requirements from your own country please contact the international office at international@sbc.usst.edu.cn

English Language Requirements

Foundation Entry

IELTS 5.0	TOEFL IBT 35	PTE Academic 36	Password 5.0	Password 5.0	SBC Entrance Test
--------------	-----------------	--------------------	-----------------	-----------------	----------------------

Degree Entry

IELTS 5.5	TOEFL IBT 46	PTE Academic 42	Password 5.5
--------------	-----------------	--------------------	-----------------

Dual Degree

Academic Requirements

- GCSE/IGCSE: Successful completion of 5 modules, including Maths and English, with grades of 4 or above. (CCCCC for Pre 2017 Students)
- IB: 22 Points

English Language Requirements

IELTS 5.0	TOEFL IBT 35	PTE Academic 36	Password 5.0	Password 5.0	SBC Entrance Test
--------------	-----------------	--------------------	-----------------	-----------------	----------------------

English for Academic Purposes Exemption

Being a native English speaker	IELTS 6.0 (Minimum 5.5 per component)
Password score of 6.0	TOEFL iBT of 60
